Through the long hours uneading lines of vaterans, citizens, men, women and even children, trooped past the casket, catching a flecting glimpse of the dead commander. If one would know the love and veneration and grief of Georgia's citizens, he had to but watch these people. Sad faces were wet with tears. At the State line of Georgia it was received from the hands of Florida's citizens and solders by an escort from friends in his own State. At the station here it was received by a military escort, and despite the cold of a Georgia winter day and the early hour, hundreds had gathered to receive the remains. Eceher came to New York a month ago to visit friends. She is the relgning helle of Richmond, and created a sensation when she visited the Horse Show here last fall. Soon after reaching New York the last time she became ill, and was taken to a sanitarium. Mr. and Mrs. Bosher came to New York as soon as possible to be near their daughter. The change in climate was too great for Mr. Ecsher, and he contracted a heavy cold, which developed into pneumonia. Dr. Ley attended him in his apartments at the hotel, and his son, Dr. R. S. The records of that historic church contains the names of no more consistent, worthy or useful members than those of this father and son. Mr. Bosher received his education principally at the private school of the late

never having had the advantages of a collegiate course, his training at this school, and his careful and reading, made him an unusually well informed and well rounded business man. He began his business career at informed and well rounded business man. He began his business career at the early age of fifteen, in the office of the late James Thomas, Jr., some lime a noted tobacconist of this city, and he was in this employment when the Confederate war came on. He was then just eighteen years of age. Early in May, 1861, he went to the Peninsula and joined the Second Company of Richmond Howitzers, with which command he served during the whole war. He was at the battle of Bethel, and in every engagement in which his company participated, from the time he entered it until the surrender at Appomatics, he was at his post, and did his whole duty as a soldier. The Confederate army was the greatest crucible to test and try men's characters that could have been devised; and no man who was subjected to that test stood the ordeal better than "Bob Bosher," as he was familiarly known by his friends. It would be the universal verdict of those who knew him best, both na he was familiarly known by his friends. It would be the universal verdict of those who knew him best, both during and since the war, that for real, solid worth, honest deportment and the highest order of good citizenship and comradeship he was the peer of any man who went in the Confederate army. He rose to the rank of sergeant of his company, and was of the "faithful few" who surrendered at Appomattex.

After the war was over he returned to Richmond, to find his father's home in sahes and his fortune completely wrecked by results of the war. But the hearts of these good and true people never qualled even amid the dire surroundings, with which they were then en-

Very soon Mr. Thomas, Mr. Bosher's ante-belium employer, again gave him employment. The late Mr. T. C. This firm did a very large business in the manufacture of tobacco, here and at other places, and its whole career was us other places, and its whole career was 't other places, and its whole career was 'ts unoted for its reputation for honesty and upright dealings as it was for its almost phenomenal success. It did a large business, not only in this country, but almost throughout the civilized world, and its reputation was the same wherever the name of the firm was known. Mr. Bosher was first sent to the Danville transfer and remained there about a year. Bosher was first sent to the Dainview branch and remained there about a year. He was then brought back to Richmond and remained here in the employment of this firm until the drath of Mr. Thomas: He was then admitted to an interest in the concern, and so continued until the death of Mr. T. C. Williams, about fifteen years ago. On the death of Mr. Williams, Mr. Bosher, Mr. T. C. Williams, Mr. James T. Parkinson and other members of Mr. Williams family, formed the T. C. Williams Company for the purpose of conducting the business of the late firm of T. C. Williams & Co., and of this corporation Mr. Bosher was made the president, and Mr. T. C. ### TRIBUTES OF FRIENDS.

Written by Those Who Knew Mr. Bosher and Loved Him. By Hon. George L. Christian,

Life-Long Friend. If I was asked to name the man of all my acquaintance whose whole life had been a model for the young and old, I would, without hesitation, name Robert S. Bosher. I know it may be objected, that I have been his close, perhaps, closest friend, for forty years, and am, therefore a prejudiced witness. Indimit the justice of this objection. But the very closeness of our friendship has afforded me apportunities for estimating afforded me opportunities for estimating afforded me opportunities for estimating and weighing every feature of my friend's character, and, therefore, I know what I affirm of him to be true. No man ever had better opportunities of judging another, than I have had of "Bob Bosher" (as I always called him). I have seen him in almost every position and condition of life, I have known him to rease and to rease it adversity. tion and condition of file. I have seen him in the most trying circumstances of danger and threatened disaster, and I never saw him furried or even unduly excited at any time, or at anything then occurring.

I will cite a striking illustration of this which I once witnessed. On the 10th of May, 1844, at Spotsylvania, Courthouse, the Second Richmond Howitzers was stationed about a half a mile to the left of what, on the 12th, became the "Bloody Angle," We were being supported at the time by an infantry brigade, which, for good reasons, I will not here name. About four o'clock in the evening, the enemy made a vigorous assault on our line, and captured and carried it up to the point at which our guns were stationed. Just then our infantry support gave way, leaving our battery alone to hold our lines at that point. We fired double rounds of canister, enfliading the enemy, and held our lines. I have written evidence of the fact that we saved General Lee's lines at that point that day, When this infantry brigade gave way the brigader general commanding it, and several of our company officers and men, tried in vian to raily them. Our standard-bearer (a devoted friend of Bob), almost wild with excitement, selzed our colors, and rushing some distance in front of our works, tried his best to raily the infantry. In the midst of this excitement and confusion, Hob Bosher in the private interests—the accumulations of of honest and well directed work as the perhaps, the record of any man could exhibit.

Mr. Bosbir married Miss Mattle E. Cx. who, with five children, survive him. The children are Dr. Robert S. 10 Bosher, Ir., Percy S. Bosher, Lewis C. Ecsher and Misses Ellie and Bessle Debeher. He is also survived by three trethers and two sisters. These are Captain E. Jeter Bosher, Mr. Lucy R. Janney and Miss Sophia J. Bosher. No man was more devoted to his family than Mr. Bosher, and he seemed to live solely for their pleasure and that of his friends. About three years ago he took a trip around the world, taking his whole family with him, and again, this fact summer, he took all, except one, with him on a trip to Europe. His devotion to his family was, however, by no neans the measure of his liberality and kindness. There was no cause of descring charity that appealed to him in visin, and he made his contributions on the few measure of the Mr. Willist Mr. Bosher never hold any public office, he took the deepest interest in municipal and State affairs, and was always ready to contribute both, of his time and means to the advancement of the search of the beanks, and his assument and the mean of the chamber of Commerce, and at one time a member of the board of directors. This suggestion was made as modestly and as quietly as he would meet and greet a friend on Main Street, or discuss a business proposition in his office. As was said of one of England's famous soldlers, "he feared man less, because he feared dod more." I believe the only thing "Bob Bosher" was afraid of on earth was of doing wrong. And I never knew any man who tried harder to do right, or who, in my judgment, more nearly succeeded. If I wrote a whole volume, I could not say more. I know that no man ever had a truer friend than he was to me and mine, and I believe that Virginia never gave birth to a more loyal, devoted and upright son. "Peace to his noble ashes."

By Rev. George Cooper, D. D., for many years his pastor:

"The death of Mr. Robert S. Besher enuses unusual sorrow to the First Baptist Church, of which he had been a member for many years. He united with the church on November 2d, 180d, and has continued in increasing honor, usefulness and value to all its interests.

His life reveals his unheading devotion to the highest idea? Its sanctity was the temple in which he worshipped. It eccupied the throne of his life and he was ever its obedient subject. It was not an occasional impulse, but a steady aim, a constant star, a fixed compass. He never allowed it to droop or thought for a moment of lowering it for the sake of success or pleasure. It was the mightiest factor in his life.

His humility was equally noteworthy, He was the most modest of men. Often his brethren felt that he undervalued himself. Kind words of their appreciation of him as a brother would make him tash like a child. The more he thought of what he was as a young man, heginning life as a clerk, the less he thought of what he was as one of the most successful business men of the city. There was nothing in him too good to be employed in the work of helping others. He was to many whose names are unknown a constant-benefactor. He

There was nothing in him too good to be employed in the work of helping others. He was to many whose names are unknown a constant benefactor. He could not for one moment allow himself to be withdrawn into the luxury of comfortable independence while others near him were struggling with difficulties and crying under heavy burdens. I noverwant to him with an appeal for help that he did not generously, cheerfully respond.

Of other qualities of his character I neight write in other circumstances. But I can say that no city ever had a citizen of higher character, a business man of more unswerving integrity and wise sagacity, a soldier of braver heart behind the guns, a friend of more courteous and manly mien, a man of affairs of more sweet simplicity and true faith, than Richmond had in Robert Semple Bosher. To have reached such attainments in the city of his birth and boyhood, to be accorded such a high position in character and work by those who were his schoolmates and playfellows, is an honor of rare occurrence.

schoolmates and playfeilows, is an honor of rare occurrence.

I shall always be grateful for his friendship and fellowship. Beyond all wenth or honor is the attachment we form to noble souls, for to become and continue the friends of such is to become in a measure noble, generous and good ourselves. Their character is the quarry out of which we bring the stones for the temple of our lives. So a good man never dies.

"I am deeply grieved over the loss of a friend with whom I have been closely associated, and whose assistance and advice have been of the greatest value to me.

"Mr. Bosher was an unassuming, modest man, and one of the most useful of our citizens, and I know of no one who could be of greater loss to the city or more missed. We have lost a valuable, public spirited citizen, one who never failed to respond to the needs of the community or the individual, and whose work and char'ty were done in the quietest manner possible.

"I was associated with him in a number of enterorises, and his calm business judgment has always been of the greatest aid and value. He was an ideal citizen, and his place will be hard to fill."
